The journal "SIKLUS" accepts scientific articles in the field of health and midwifery. We published 10 scientific papers for each issue.

We have compiled this scientific journal to its full potential and received assistance from various parties so that it can facilitate the making. We are grateful to all those who contributed to the making of this journal, especially to the authors, editorial board, and reviewers.

However, there are still shortcomings in terms of sentence structure and grammar. Therefore, we accept all suggestions and criticisms from readers so that we can improve the journal.
